EXPERIENCE

POUROS-QUITZON

10/2020 - present

Dallas, TX // Cloud Security Engineer

- Working experience developing applications or managing infrastructure services for public cloud such as AWS and GCP
- Working experience in the information technology domain (computer/mobile application, APIs, container technology such as Dockers, public cloud, data science etc) and preferably in the information security domain
- Experience performing system analysis and design requirements gathering
- Professional certification such as CISSP, GIAC GISP will be an added advantage
- Public cloud certifications
- Able to travel on a need to basis
- Unimpeachable integrity, character, courage and honesty

KIHN, KEELING AND VONRUEDEN

10/2016 - 06/2020

Dallas, TX // Cloud Security Engineer

- Engineering mindset to develop & troubleshoot issues with an empirical & methodical approach
- Self-starter mentality that defaults to action and thinks creatively on how to overcome challenges
- Effective communication skills to interface with both internal and external teams on complex issues and enthusiastic timelines
- Familiarity with CI/CD pipelines (notably Jenkins)
- Familiarity with systems configuration orchestration (notably Chef)

EDUCATION

PARSONS THE NEW SCHOOL FOR DESIGN

Bachelor's in Computer Science
